

LinkIR

INFRARED LINK FOR PHILIPS SMARTCARD MONITORS

LinkIR FRONT

LinkIR BACK

ScanCard

MonCard

The LinkIR connects up to (8) eight Philips SmartCard monitors together via the Smart Port standard six conductor RG-11 cables for a dependable hard wire control. A second LinkIR can be connected for a total of (14) fourteen parallel connected monitors. LinkIR allows any Philips IR monitor remote to control all functions of the remote. The remote functions will work at any of the linked monitors or from the LinkIR. Separate power supply is included. The LinkIR works with Philips MonCards or ScanCards. The cards must be purchased from Y/C Plus with the LinkIR controls activated. Pin configured for LinkIR cables is listed below.
